

MANISHA M

WEB DEVELOPER

PROFILE

Computer Science and Engineering student with expertise in full-stack development, cloud computing, and software engineering principles. Proficient in JavaScript, React, Node.js, and database management. Passionate about building scalable and efficient applications with a user-centric approach.

CERTIFICATE

Infosys certificate on

- **Programming in c++**
- **Programming in java**
- **HTML , CSS and JavaScript**
- **Data Structure and Algorithms**
- **Database Managers system**
- **Object oriented analysis and design**

PROJECT

Leaf Diseases Director

The Seed Disease Detection project utilizes cutting-edge technology, including Convolutional Neural Networks (CNN), to revolutionize agriculture. By enabling the early detection and classification of seed diseases, this system empowers farmers with a powerful tool for crop protection and management, ensuring healthier harvests and greater food security.

- **HTML, CSS, JavaScript** for the front end.
- **Python** (CNN deep learning) for the back end.

AWARDS

LETS CODE TAMILNADU

- **Hackthon Winner**

STUDENT OF THE YEAR

- **Outstanding scholastic performance and achievements**

HOBBIES

- **Drawing**
- **Poster creation**
- **Web page design**
- **Cooking**
